Ruhizat Dahlan

Senior Technical Support
ruhizatd@outlook.com | +60 11-5632 4990 | ruhizatd.github.io

SUMMARY

Technical Support professional with practical experience in troubleshooting hardware, software, and network-related issues, supporting end users in resolving technical problems efficiently. Possesses foundational knowledge in system administration, Active Directory, and networking. Continuously enhances skills through home lab environments and personal projects, with a strong focus on improving problem-solving and technical capabilities.

SKILLS

Technical Support & Troubleshooting
- Hardware and software troubleshooting
- End-user support and issue resolution
- Basic network troubleshooting

System Administration (Fundamental)
- Windows Server
- Active Directory (User, OU, Group Policy)
- Hyper-V (Virtualization setup)

Networking (Fundamental)
- IP addressing, basic computer network configuration
- Remote access: Remote Desktop (RDP), Tailscale, VPN Connectivity (SSL VPN / Remote Access)

Web Development (Fundamental)
- HTML, CSS, PHP
- MySQL (CRUD operations)

PROJECTS

Home Lab Setup
- Built a virtual IT lab environment to simulate real-world IT infrastructure
- Performed network configuration, system setup, and testing in a controlled environment
- Practiced remote access using RDP and tools like VPN connectivity.

Active Directory Lab
- Configured a basic Active Directory domain environment, including user creation and OU structure
- Applied fundamental Group Policy settings to manage user access and system behaviour
- Gained hands-on understanding of domain management and user administration

PHP & MySQL Complaint System
- Developed a simple web-based complaint management system using PHP and MySQL
- Implemented basic CRUD functionality to handle user submissions and data updates
- Built as a personal project to strengthen understanding of web development fundamentals

EXPERIENCE

Senior Technical Support – ILLEGEAR

(2019 – Present)

- Diagnose and resolve hardware and software issues, including laptop repair, OS errors, BIOS firmware, and driver-related problems
- Provide remote and on-site technical support, assisting users with system and device issues
- Perform system updates, BIOS configuration, and troubleshooting to improve performance and stability
- Prioritize and manage technical cases to ensure timely resolution
- Handle warranty processes and coordinate with suppliers for parts replacement
- Document troubleshooting steps and solutions in ticketing systems
- Assist users in understanding and effectively using systems and applications
- Handled multiple technical cases daily while maintaining service quality

IT Technician – ALL IT Hypermarket

(2017 – 2019)

- Diagnosed and repaired hardware and software issues for desktops and laptops
- Installed operating systems, performed system setup, and handled software-related issues
- Assisted customers with the setup and configuration of PCs, networking devices, and peripherals.
- Performed data backup, recovery, and system maintenance tasks
- Handles product testing and verification for repairs and RMA processes

IT Consultant (Intern) – NLC Consulting Company

(2017)

- Assisted in database-related tasks, including SQL scripting and system configuration
- Supported basic database troubleshooting and workflow setup

---

EDUCATION

Diploma in Information Technology

MSU College (2014 – 2017)
CGPA: 3.03

Sijil Pelajaran Malaysia (SPM)

SMK Taman Kosas
2004 – 2005
