SUMMARY

Technical Support professional with hands-on experience in troubleshooting hardware, software, and network-related issues, as well as supporting end users in resolving technical problems.
Possesses fundamental knowledge in system administration, Active Directory, and networking, and continuously improves skills through hands-on practice, home lab environments, and personal projects.

SKILLS

Technical Support & Troubleshooting
- Hardware and software troubleshooting
- End-user support and issue resolution
- Basic network troubleshooting

System Administration (Fundamental)
- Windows Server
- Active Directory (User, OU, Group Policy)
- Hyper-V (Virtualization setup)

Networking (Fundamental)
- IP addressing, basic computer network configuration
- Remote access (RDP, Tailscale)

Web Development (Fundamental)
- HTML, CSS, PHP
- MySQL (CRUD operations)

PROJECTS

Home Lab Setup
- Built a virtual IT lab environment to simulate real-world IT infrastructure
- Performed network configuration, system setup, and testing in a controlled environment
- Practiced remote access using RDP and tools like Tailscale.

Active Directory Lab
- Configured a basic Active Directory domain environment, including user creation and OU structure
- Applied fundamental Group Policy settings to manage user access and system behaviour
- Gained hands-on understanding of domain management and user administration

PHP & MySQL Complaint System
- Developed a simple web-based complaint management system using PHP and MySQL
- Implemented basic CRUD functionality to handle user submissions and data updates
- Built as a personal project to strengthen understanding of web development fundamentals

EXPERIENCE

Senior Technical Support – ILLEGEAR

(2019 – Present)

- Diagnose and resolve hardware and software issues, including laptop repair, OS errors, BIOS firmware, and driver-related problems
- Provide remote and on-site technical support, assisting users with system and device issues
- Perform system updates, BIOS configuration, and troubleshooting to improve performance and stability
- Prioritize and manage technical cases to ensure timely resolution
- Handle warranty processes and coordinate with suppliers for parts replacement
- Document troubleshooting steps and solutions in ticketing systems
- Assist users in understanding and effectively using systems and applications
- Handled multiple technical cases daily while maintaining service quality

IT Technician – ALL IT Hypermarket

(2017 – 2019)

- Diagnosed and repaired hardware and software issues for desktops and laptops
- Installed operating systems, performed system setup, and handled software-related issues
- Assisted customers with the setup and configuration of PCs, networking devices, and peripherals.
- Performed data backup, recovery, and system maintenance tasks
- Handles product testing and verification for repairs and RMA processes

IT Consultant (Intern) – NLC Consulting Company

(2017)

- Assisted in database-related tasks, including SQL scripting and system configuration
- Supported basic database troubleshooting and workflow setup

---

EDUCATION

Diploma in Information Technology

MSU College (2014 – 2017)
CGPA: 3.03

Sijil Pelajaran Malaysia (SPM)

SMK Taman Kosas
2004 – 2005
